

Dear Personnel Manager:

I am pleased to write a letter of recommendation for James Hang. I highly recommend James to your organization for the position of computer programmer / web developer.

I have known James for the past three years as he has taken the following courses that I teach: CST1021 HTML and the Web, CST2641 Intro Mobile Applications, CST1640 Intro to Java using Android, CST1146 PHP Programming. As his professor, I have had an opportunity to observe his participation and interaction in class and to evaluate James' knowledge of the subject matter. He is an outstanding student in all respects. James has proven that through hard work, follow through, and team work, he can accomplish tasks in a courteous and timely manner.

James was assigned as my work-study for Fall 2016 – Spring 2017 semesters. His work-study assignment was to tutor other students taking Python, HTML, Javascript, Java, Databases, etc. The feedback I have received from other students was that James is patient with others and is able to elaborate on the material in detail, until the other student "gets it". Many students saw James on a regular basis to get extra help.

James is well equipped to grow from challenges that he is presented with. His strong programming skills, patience, and teaching ability prepare him for a position of computer programmer / web developer. I endorse making James Hang a member of your team at your organization.

Sincerely,

Allen D. Benusa – Instructor  
Computer Programming / Computer Systems
